

Mindful Drinks

Position: Food Scientist and Product Development

About Mindful Drinks:

Mindful Drinks is an exciting start-up that offers the world's first alcoholic and non-alcoholic digestive beverages brewed sustainably from 100% spent coffee grounds, meeting millions of consumers' desire to better digest their meals while providing valuable nutritional benefits, and a lower alcohol kick than traditional digestifs. We are a fun and trendy and innovative beverage company that aims to revolutionise the way beverages are consumed, by providing better-for-you and better-for-the earth alternatives.

Opportunity Overview:

Mindful Drinks is looking for food scientists to be part of a lean team in Singapore, assisting with the raw material handling, food safety requirements and joint product development. There is high potential for high-performing food scientists, aligned with the start-up's vision to join the team as a co-founder.

Job Description:

- Spearheading food and beverage safety and shelf-life requirements
- Product development
- Streamlining product operations and processes
- Supporting business development, operations, and marketing activities
- Work effectively and successfully in a fast-paced, deadline driven environment

Qualifications / Requirement:

- Ability to think creatively and articulate complex messages and ideas simply and clearly
- Accuracy and attention to detail in a fast-paced environment
- Excellent communication and organizational skills
- Team-player who has the desire to participate in an entrepreneurial firm culture
- Team-player who is able to both take direction and show initiative as appropriate.
- High degree of dedication
- Results-oriented, with an ability to manage multiple projects simultaneously and expeditiously
- Passion for brewing and fermenting is a plus
